I give my consent for the above named minor to receive mental health, medical, dental, counseling and treatment at a school based health center. These services may include: physicals, sick care, immunizations, health education and risk assessments. I understand that appropriate treatment for illness may include over the counter medications such as: Tylenol or Motrin, cough medicine, or antibiotic creams. I understand that Michigan law does not require parental consent for treatment of drug abuse, alcoholism, sexually transmitted infections, pregnancy or contraception.

I understand that testing for blood borne diseases (including HIV/AIDS) may be performed upon a patient without a separate written consent in the event that a health care employee receives a cut or exposure to my child's blood or body fluids.

I give my permission to have the health center bill any insurance I have for services provided.

I understand that my/my child's picture may be taken for identification and protection purposes only, and will become a part of my/my child's record.

I give my permission to have my child complete classroom or health center surveys, which will be used to improve programs and services at the school, based health centers. I understand that my child's participation is voluntary and that he/she will not be identified in any way.

I acknowledge that I have received the Mott Children's Health Center Notice of Privacy Practices.

I give my consent to share health information with my child's medical provider and the Michigan Care Improvement Registry (MCIR) either verbally or written. We measure your child's height and weight and record that information in (MCIR) Body Mass Index (BMI) Growth Module. We use the resources and tools in the module to promote healthy weight and lifestyle habits for your child. Use of the module is optional for your child and you may choose to decline this service. I understand that no information will be shared unless there is a valid reason for doing so.

I have read and understand this document and sign it freely and voluntarily.
