

*Beecher Teen Health
(810) 591-9333*

*Open All Year
Monday thru Friday
8am – 4pm*

*Northwestern Wellness Center
(810) 760-5076*

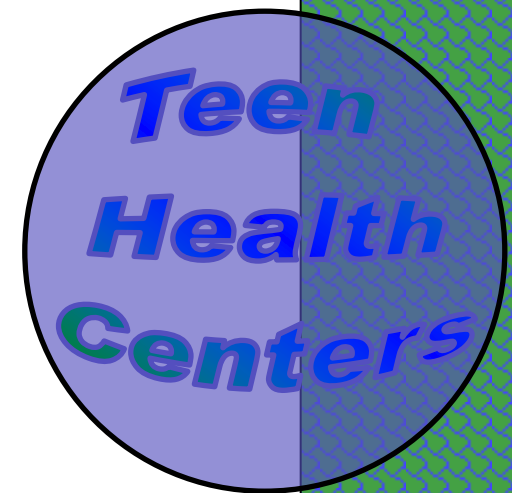

If you need help and we are not open or you cannot reach us for any reason, go to the nearest emergency room or urgent care center. If you are a member of an HMO or managed care plan, contact the number on your insurance card for instructions. Follow these same instructions if you need urgent care for a medical condition or for a mental health emergency.

Flint, Michigan 48504
(810) 760-5076

We are here to help you stay healthy! Nurse practitioners, doctors, counselors and health educators staff the centers.

The centers provide the following services:

- *A visit with the doctor or nurse practitioner if you are not feeling well*
- *Get a sports physical or an annual physical*
- *Talk to someone about problems or stress you might have*
- *Get connected to other services in our community*

Our staff enjoys working with students and you will be treated with respect. We will make sure that you are involved in decisions regarding the care you receive at the centers.

Our services are confidential (that means we won't tell anyone about what happened without your OK).

Our centers are open to anyone in Genesee County between the age of 10 and their 22nd birthday.

We need your parent's/guardian's consent to enroll you in the center, but remember, what happens here is confidential! And it's free!! You will never have to pay for any services you receive at the center. If you have insurance, we will bill the insurer if possible. If you do not have insurance, we may be able to assist you in obtaining insurance coverage through MiChild. Please contact our office.

In addition to clinic services, the staff of the centers may be involved in classroom presentations about health education.

The centers also offer nutrition counseling, men's and women's health education in groups or one-on-one, and our mental health therapist is available. Support groups are offered as time and staff permits.

Confidential services include diagnosis of sexually transmitted infections, pregnancy testing, and family planning counseling.
